

2015 International Sourcing Summit on Petrochemical Equipment and Material

Aug. 26-28, 2015

Shanghai New International Expo Center

China's petrochemical industry is now going into a transitional phase when enterprises of the middle and lower stream of the industry are now exposed to great opportunities with the booming of the industrial economy and a huge market demand. Domestic petrochemical enterprises are determined to pursue further independent innovation, low-carbon development and information construction to drive the industry into a high-end, eco-friendly and service-oriented course.

Held concurrently with cippe, ciooe, cling, the summit will cover multiple topics including building an eco-friendly petrochemical industry, realizing internet intellectualization and made in China 2025 and provide a comprehensive and high-end platform for business communication and technology exchange.

As scheduled, there will be well-known enterprises to hold technical meetings as well as prominent experts and scholars from top enterprises and universities such as SINOPEC and East China University of Science and Technology who are invited to give lectures.

Session 1: Hall W1–Convention Quarter 1

Aug. 26	9:30-16:00	International Sourcing Summit on Petrochemical Equipment and Material Internet & Intelligent Plant Construction Forum
Aug. 27	9:30-10:20	The Application of TMEIC Motor and VFD in Petrochemical Industry Feng Jin, TMEIC
Aug. 27	10:30-11:20	Characteristic Research of LNG Ultra-low Temperature Ball Valve Zhenghao Qiu, CTO of Bluestar valve Co., Ltd
Aug. 27	11:30-12:20	The Application of GE COD/TOC Online Analyzer in Condensate and Waste Water Zhi Li, Sales Manager of GE Analytical Instrument Process Control of China The Application of GE Intelligent Leak Detection System in Petrochemical Industry Ju Zhou, Sales Manager of GE Slick Detection System of China
Aug. 27	13:00-13:50	Creative Financial Service for the Internet and Commodities Xueqin Xu, General Manager of Shangdong Houston Commodities Trading Center

Aug. 27	14:00-14:40	The Application of TMEIC Motor and VFD in Petrochemical Industry Feng Jin, TMEIC
Aug. 27	14:50-15:30	The Application of in the trend of production safety integration Holographic video system -----How to use the big data effective governance "Crazy oil tankers"?
Aug. 27	15:40-16:30	Available
Aug. 28	9:30-12:00	Exchange of Equipment Maintenance and Lubricating Oil Technology China Association of Machinery, Equipment, Maintenance and Renovation

Session 2: Hall W1–Convention Quarter 2		
Aug. 26	9:30-16:00	Forum on the Comparison and Trend Analysis of Petrochemical Product Development at Home and Abroad Petrochemical Industry Alliance at Home and Abroad
Aug. 27	9:30-10:20	How is Automatic Crude Sampling System Valuable for Enterprises Introduction of Automatic Crude Sampling System of ATC Francesco Lorelli, Sales Director of ATC
Aug. 27	10:30-11:10	The Application and Development of Flexible and Detachable Insulation System in Petrochemical Industry Yunjie Zhang , Shanghai Yiyi Energy Saving Technology Co., Ltd.
Aug. 27	11:20-12:10	How to create value for enterprise by automation of crude oil sampling system? The introduction of Italian company ATC for automation of crude oil sampling system
Aug. 27	13:00-15:30	Forum on Green Chemical Industry and Environmental Protection Industry
Aug. 27	15:30-16:10	The Application of Temperature Swing Adsorption in Petrochemical Industry Yue Mao, CTO
Aug. 28	9:30-10:20-	Shanghai International Summit on OBAOR Oil & Gas Investment and New Equipment &Technology

Aug. 28	10:30-11:10	Shanghai International Summit on OBAOR Oil & Gas Investment and New Equipment &Technology
Aug. 28	11:20-12:00	Shanghai International Summit on OBAOR Oil & Gas Investment and New Equipment &Technology

*The above arrangement is subject to change by the right of the committee.
